PROFESSIONAL SUMMARY

Product Designer with 10+ years in tech, the last five focused on UX and UI design for enterprise software, SaaS platforms, and AI-powered products. Led the end-to-end design of an AI document intelligence platform spanning three user portals — from user research and information architecture through prototyping, usability testing, and developer handoff. Builds and maintains design systems and component libraries in Figma, and a hands-on front-end background in HTML, CSS, Tailwind, and React makes collaboration with engineers direct and practical.

CORE SKILLS

Product Design: Product Design, UX Design, UI Design, Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping, Usability Testing, UX Research

Systems: Design System Creation & Governance, Reusable Component Libraries, Design Tokens, Responsive & Adaptive Layouts, Accessibility (WCAG)

Collaboration: Cross-functional Collaboration, Developer Handoff, Stakeholder Interviews, Business Requirements, Design-to-Development Workflows, Agile Development

PROFESSIONAL EXPERIENCE

UI/UX Designer — Actimai Philippines, Inc.

Nov 2021 – Jun 2026

Pasig City, Philippines

- **Led end-to-end product design for DocThread AI**, an AI-powered document processing platform, covering user research, information architecture, workflow design, and UI **across three user portals**.
- Translated **complex document-processing workflows** and business requirements into user flows, wireframes, and high-fidelity prototypes for enterprise users.
- Built and maintained the product's **design system and component library in Figma**, keeping interfaces visually consistent and making prototyping faster across the platform.
- Ran **usability testing** and presented redesign rationale grounded in user feedback, and prepared detailed specs and assets for **developer handoff**, working directly with engineers through implementation.

User Interface Web Developer — IBM Global Business Services, Inc.

Nov 2019 – Apr 2021

Quezon City, Philippines

- Designed and built **learning portals for IBM employees**, turning dense pedagogical requirements into clear, navigable interfaces implemented in WordPress, Moodle, Dojo, and React, with **accessibility applied through WCAG compliance**.
- Created custom Gutenberg blocks that let non-technical editors update pages independently, **cutting content development time by roughly 30%**.
- Worked with instructional designers to restructure long, intricate documents into polished digital learning modules aligned with IBM's learning objectives.

Web Developer / WordPress Designer — AffinityX Inc.

Feb 2019 – Nov 2019

Quezon City, Philippines (formerly Affinity Express Philippines, Inc.)

- Built WordPress and WooCommerce sites for clients across the US and Europe, including **white-label builds for GoDaddy**, with booking and checkout flows connected to external systems via webhooks.
- Handled ticketed design requests in Jira covering UI fixes, image work, and logo design.

UI/UX Designer — Hello Media Inc.

Oct 2018 – Jan 2019

Quezon City, Philippines

- Designed the interface for an **iOS and Android events app** covering event discovery, attendee matching, and partner promos.
- Delivered complete design assets and specifications in Adobe XD and Sketch to an offshore development team.

UI/UX Designer — Mobile Group Inc.

Mar 2017 – Sep 2017

Makati City, Philippines

- Designed **end-to-end cinema booking flows** — search, movie and showtime selection, seat selection, and payment — for SM Cinema, Robinsons Movieworld, and Shang Cineplex, keeping the experience coherent across chains with **different business rules and seat layouts**.
- Ran **stakeholder interviews** with each cinema client to surface pain points, then managed prototyping and usability testing in Sketch, Adobe Illustrator, and Adobe XD.

Jr. Graphic Designer — TalentSource Inc.

Apr 2016 – Aug 2016

Pasig City, Philippines

- Produced brand guidelines and promotional design — print, social media, and video — for PhilJobNet job fairs run in collaboration with DOLE.

Web Designer — Medilink Network Inc.

Dec 2014 – Mar 2016

Makati City, Philippines

- Built **responsive front-ends for Maxicare HMO member portals** — enrollment, provider search, and claims — using JavaScript, Bootstrap, and CSS, integrated with backend systems.
- Designed the UI for an **internal Call Management Suite** for call recording and quality reporting, and maintained a knowledge base portal that made the company's core product understandable to non-technical staff and clients.

TOOLS & TECHNICAL SKILLS

Design Tools: Figma, Adobe Creative Cloud, Adobe XD, Sketch, Framer, Canva, LottieFiles

Front-end: HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, React, shadcn/ui, WordPress, Responsive Web Design

Workflow & AI Tools: Git/GitHub, VS Code, Cursor, Claude, Jira, Firebase, Azure DevOps

EDUCATION

Bachelor of Science in Information Technology

Jun 2009 – May 2013

Polytechnic University of the Philippines — Manila Campus

TRAININGS & CERTIFICATIONS

- Accessibility Advocate — IBM
- Enterprise Design Thinking Co-Creator — IBM
- Digital Skills: User Experience — Accenture
- Become a UX Designer from Scratch — Interaction Design Foundation (IxDF)
- Master Digital Product Design: UX Research & UI Design — Udemy
- Motion Design with Figma — Udemy
- Foundations of Project Management — Google
- Prompt Engineering for Everyone — CognitiveClass
